733 Series | 1080p DLP® HDTV

Models: WD-57733 | WD-65733 | WD-73733

WD-57733 Shown
Cabinet Color: Platinum Black

More color, for a more colorful image. Mitsubishi is taking Color to a new level with x.v.Color™ support and its exclusive 6-Color Light Engine.™ x.v.Color™ is the new standard for HDTV and it enables 80% more color than standard HDTV! Mitsubishi's 6-Color Light Engine™ processes and produces images with six different colors instead of the traditional three to display a wider range of colors, brighter colors and whiter whites. Additional color features such as Color 4D Noise Reduction and PerfectColor™ allow for additional advanced color processing and adjustment. The result is breathtaking realism with vivid, yet natural Color Without Compromise.

Larger screen, not larger spaces. These 733 Series 57", 65" and 73" 1080p DLP® HDTVs feature Mitsubishi's unique TurboLight180™ lamp system and Plush1080p® processing for both unsurpassed detail in over 2 million pixels and for bright, vibrant images. The stunning High Definition picture is further enhanced by its sleek and modern look. Mitsubishi's sleek, simple design provides more picture with less frame. This year even the 73" 1080p DLP® HDTV gets a thin frame, and a dramatically thinner cabinet. With 1080p and a compact cabinet, get a larger screen and sit closer than ever before! Go ahead and get into the action, immerse yourself…

Lots of connections, made easy. Mitsubishi leads the industry with 3 rear HDMI™ 1.3 inputs and 2 rear component inputs for maximum HD connectivity. A Front Component Video Input allows you to easily connect an HD game system or other HD component. Additionally, a USB input for up to 5 Mega Pixel pictures connects you to large screen digital photo viewing. And Mitsubishi's Easy Connect™ makes set-up and operation so easy.

Get the Perfect Picture Every Time

- 1080p DLP® Display
- Mitsubishi Exclusive 6-Color Light Engine™
- x.v.Color™
- Deep Color
- TurboLight180™
